### Presentation Speakers & Moderator

**Robert Sinclair**  
Senior Medical Advisor  
Department of Health Care  
Region Västra Götaland

Born and based in Göteborg, Sweden. Medical studies at the University of Göteborg. Thesis on inflammation and pain published in 1996. Specialist in Anesthesiology and Intensive Care 1982, Head of the Department of Anesthesia and Intensive Care at Sahlgren University Hospital/Mölndal 1997 - 2003. Long-time interest in travel medicine and international health, diploma course

in tropical medicine and hygiene and author of a handbook in travel medicine. Field studies of medical care facilities and systems worldwide. Chair of an international network specialized in workplace safety and health and wellbeing promotion. From 2004 Senior Medical Advisor to the Region Västra Götaland, with a special focus on; 1) medical and health care matters and systems within the European Union and in other international contexts; 2) acute care processes and patient empowerment; 3) the possibilities of health and medical care to contribute to equality in health as well as regional development and economic growth.

Andrew Mitchell was born in Lancashire in 1967 and brought up close to Liverpool. Andrew's roots are in the city of Liverpool and the city's fascination with football goes right through Andrew too, "like a stick of Blackpool rock". After a stint working in Geneva Andrew moved to Oxford where he studied for a degree in French and Spanish and spent a little too much time engaged in vigorous physical activity and in the more aesthetic pursuits. After college Andrew worked for a wine merchant for a while and developed an interest in the study of wine. He joined the Foreign Office in 1991. Since then Andrew has had postings in Bonn (1993-1996) where he covered the German political scene and Kathmandu (1999-2002) where Andrew was first Deputy Head of Mission then Chargé d'Affaires. Andrew's most recent appointment was in London (2002-2007), where he was responsible for the Foreign Office's global ICT infrastructure. Andrew is married to Helen, herself a career diplomat, and together they have three young children. Andrew spends as much time with the family as his professional duties allow. Andrew still enjoys sport, runs regularly and plays football, squash and tennis when he can. He and Helen also enjoy Stockholm's rich cultural life, of theatre, music, opera and ballet, as well as Swedish literature.

**Andrew Mitchell**  
HM British Ambassador to Sweden

**Olle Larkö**  
Dean of the Sahlgrenska academy
